

To Whom it may Concern:

I currently live on Penfield Road In Fairfield a few blocks from the beach. We moved into our house 6 years ago. When we first moved in our street did not have permit only parking signs. Our street was bumper to bumper cars parked for the beach. It was extremely dangerous for our children. The town switched our street to permit parking the following season. Our streets are already plagued with traffic, speeding and safety problems. This bill would be detrimental to our neighborhood. Our streets would not be able to handle an influx of cars and people. Our taxes in the beach are extremely high. Fairfield would stand to lose at least \$1.2 million in revenue that is generated through the beach passes and parking passes.

On a Sunday at Penfield Beach in July or August it is nearly impossible to find a place to put down your chairs. The beach is overcrowded and garbage overflows from all the cans. As it stands right now our town can't handle the amount of visitors we have to our beaches.

Please take into consideration the people who actually live in these coastal neighborhoods and the ramifications this bill would cause. And do not pass this bill.

Thank you,
